Fresno / Sacramento, CA

PROFESSIONAL SUMMARY

Early-career technical operator with high shipping velocity across IT support, AI automation, and full-stack development. Resolved 1,000+ ServiceNow incidents as a Tier 1 service desk technician in a California state department, and built and shipped real AI agents, automation pipelines, and production web apps end to end with React, Next.js, TypeScript, and Node.js. U.S. Air Force intelligence analyst (Top Secret clearance) trained in OPSEC/INFOSEC discipline, time-critical analysis, and structured reporting. Self-directed, documentation-driven, and comfortable owning outcomes in compliance-heavy and public-sector environments.

CORE SKILLS

AI & Automation: Multi-agent orchestration (Cursor, Claude, Codex), LLM workflow design, prompt engineering, browser automation (Playwright), document/PDF generation pipelines

IT Support: ServiceNow, Tier 1 service desk, incident triage & escalation, SLA management, Active Directory, Microsoft Entra ID, Intune (MDM), SCCM, Tanium, Microsoft 365, VPN / remote support, imaging, IT asset lifecycle

Programming: TypeScript, JavaScript, React, Next.js, Node.js, HTML, CSS, Tailwind CSS, PowerShell, Python (foundational), C/C++ (foundational), Git/GitHub, REST APIs

Data & Databases: SQL, PostgreSQL, SQLite, Supabase, schema design, migrations

Documentation & Enablement: SOP/KB authoring, end-user training, technical writing, process standardization

Public Service & Security Mindset: OPSEC/INFOSEC, ITIL, MFA, Group Policy (GPO) hardening, Windows Defender, networking fundamentals (TCP/IP, DNS, DHCP, LAN/WAN), Top Secret clearance

EXPERIENCE

IT Service Desk Technician - CA Dept. of Health Care Access & Information (HCAI)

Jul 2024 - Aug 2025

- Resolved 1,000+ incident tickets in ServiceNow across Windows 10/11, Microsoft 365, Active Directory, Entra ID, and VPN, consistently meeting or exceeding SLA targets.
- Managed 750+ endpoints with Intune (MDM), SCCM, and Tanium for deployment, configuration, patch management, and remote troubleshooting.
- Administered AD / Entra ID accounts, MFA enrollment, password resets, GPO, and access provisioning across onboarding and offboarding workflows.
- Maintained and audited 800+ IT assets, improving inventory accuracy through better lifecycle tracking and documentation.
- Authored 30+ SOP/KB articles and delivered 20+ end-user training sessions, improving first-contact resolution and reducing repeat tickets.
- Triaged high-volume ticket queues and provided remote and on-site support for VPN, remote access, and conference-room A/V (Teams Rooms, Poly Studio).

Intelligence Analyst (Top Secret Cleared) - U.S. Air Force Reserves, Beale AFB, CA

Mar 2019 - Mar 2025

- Conducted analysis across 100+ missions and 300+ datasets supporting time-critical operational decision-making; deployed in support of U.S. military operations.
- Operated exclusively in classified, compliance-driven environments requiring strict OPSEC/INFOSEC discipline and documentation accuracy.
- Sustained performance under a 24/7 operational tempo with zero tolerance for error, directly transferable to enterprise SLA and security environments.

- Produced structured intelligence reports for decision-makers using geospatial and analytical tools.

IT Support Technician (Intern) - *Community College Foundation, Sacramento, CA*

Feb 2024 - Jun 2024

- Resolved 250+ hardware, software, and network issues across Windows environments while maintaining high user-satisfaction scores.
- Assisted with onboarding, account provisioning, Microsoft 365 access, hardware replacement, software deployment, and asset tracking.

Technical Project Lead - *eUnity (Startup), Sacramento, CA*

Feb 2024 - Feb 2025

- Led a 15-person volunteer development team alongside 3 co-leads using Agile/Scrum; ran sprint planning, backlog management, and release cycles.
- Translated product requirements into structured technical tasks and guided product direction through user research and feedback.

Course Instructor - *Drone Legends, Fresno, CA*

Jan 2022 - Dec 2022

- Taught 200+ students drone technology and introductory programming; supervised 230+ coding projects, simplifying technical concepts for beginners.

SELECTED PROJECTS

Operator Brain - Multi-Agent Orchestration System. Cross-project "operating system" that coordinates multiple AI coding agents (Cursor, Claude, Codex) across a portfolio of repos with a central routing layer, agent guardrails, prompt-sizing/decision gates, and a learning loop, plus a TypeScript/React control center.

Tech: TypeScript, React, multi-agent/LLM orchestration, Markdown contracts

Opslayer - AI Job-Search Automation Pipeline. Local-first, end-to-end automation system built on AI coding agents. Node.js (ESM) with Playwright for scraping, offer-liveness verification, and Chromium PDF rendering; portal scanning with dedupe/liveness gates, A-F offer scoring, ATS-optimized resume generation, and a checkpointed, resumable run-job system.

Tech: Node.js (ESM), Playwright, YAML, HTML/CSS, Chromium

BidSignal - GovCon Decision Engine (Full-Stack SaaS). Decision engine that ranks federal contract opportunities across a Discovery to Decision to Action flow. Next.js 16, React 19, and TypeScript over a single DB abstraction (SQLite dev / PostgreSQL prod), with Clerk auth, Stripe billing, a scheduled server-side ingestion pipeline, a multi-factor ranking engine, and a Vitest test suite.

Tech: Next.js, React, TypeScript, PostgreSQL/Supabase, Clerk, Stripe, Vitest

Stone Industries - Interactive 3D Marketing Site. Deployed marketing site for a veteran-led technology-services business: React 19 + Vite + TypeScript + Tailwind CSS with Three.js (React Three Fiber) interactive scenes, lead-capture forms, an interactive pricing calculator, and reduced-motion safety; shipped on Cloudflare Pages with CI.

Tech: React, Vite, TypeScript, Tailwind CSS, Three.js/R3F, Cloudflare Pages

EDUCATION

California State University, Sacramento - B.S. Economics & Management Information Systems (Dual Major), Minor: Computer Science — Expected May 2027

Fresno City College - A.S. Computer Information Systems (Expected Fall 2026); A.A. Economics (Dec 2023)

Vetboss Full-Stack Developer Bootcamp - In Progress 2026

CERTIFICATIONS & SERVICE

CompTIA Security+ (SY0-701) - Scheduled Jul 2026

Microsoft: Windows PowerShell Foundational & IT Management - Dec 2024

COITB Web Designer (HTML/CSS) - 2025

AWS Solutions Architect - Associate (Planned 2026)

Eagle Scout, Boy Scouts of America - 2016

Adult CPR/AED Certified - 2022
